RESUME OF CARROLL ORVILLE WILDE

Carroll O. Wilde was born in Elmhurst, Illinois, in 1932. He graduated from Proviso Township High School in 1950 and enlisted in the U. S. Air Force in 1951.

Upon being honorably discharged from active duty in 1955 he enrolled at Illinois State University, where he received a Bachelor of Science degree in 1958. His work at Illinois was under the direction of Professor Douglas R. Bey. His first academic appointment was as Instructor in Mathematics at the South Dakota School of Mines and Technology. In addition to teaching he was enrolled as a half-time graduate student at Mines, studying applied mathematics under the direction of Professor Louis C. Barrett.

In the summer of 1959 he attended a National Science Foundation Institute at Iowa State University of Science and Technology. From Ames he went to Ohio to become Instructor in Mathematics at The College of Wooster. In the summer of 1960 he enrolled as a graduate student at the University of Illinois and, after a second year at Wooster, returned to Urbana, where he received his Doctor of Philosophy in 1964. During his study at Illinois he was supported by the Danforth Foundation and the National Science Foundation. His research was in the area of functional analysis and was directed by Professor M. M. Day.

In 1964 he was appointed as Assistant Professor of Mathematics at the University of Minnesota. He was appointed an Associate Member of the Graduate Faculty in 1965 and did research on the topic of invariant means on discrete semigroups.

In July, 1968, he joined the faculty of the Naval Postgraduate School, Monterey, California, where he is teaching in the Mathematics department. On 1 July 1976 he was appointed Chairman of the department.

He is a member of the Mathematical Association of America, Sigma Xi, the American Mathematical Society, and the United States Naval Institute.

PUBLICATIONS OF C. O. WILDE

OPEN LITERATURE

Books; published papers, notes, letters.

1. A Power Series Development of the Convolution Theorem P
with L. C. Barrett
Am. Math. Monthly, 67, 893-894 (1960)
2. Invariant Means and Factor Semigroups P
with L. Argabright
Proc. Am. Math. Soc., 18, 226-228 (1967)
3. Invariant Means and the Stone-Cech Compactification P
with K. Wits
Pacific J. Math., 21, 557-586 (1967)
4. Semigroups Satisfying a Strong Folmer Condition P
with L. Argabright
Proc. Am. Math. Soc., 18, 587-591 (1967)
5. Proceedings of Symposium on Functional Analysis and Related B
Topics (editor)
Naval Postgraduate School, Monterey, Oct 1969
Academic Press, 1970, 162 p.
6. Amenable Transformation Semigroups P
with T. Jayachandran
J. Austral. Math. Soc., 14, 502-510 (1971)
7. Computation of the Transformation Semigroups on Three Letters P
with S. Ramey
J. Austral. Math. Soc., 14, 335 (1972)
8. A Graduate Education Program for Operational ASW P
with O. A. Hahs
U. S. Naval Inst. Proc., 99(2), 105-108 (1973)
